Hello, I'm (Programming note: Display interviewer name [fill INVN]) calling from Cornell University.

Cornell is conducting a study with people in New York to get their input on some important issues. This is a great opportunity to share your views and help shape future policies.

If you have a few minutes to help out, I would really appreciate it!

Programming note: Only display text for landline sample. [if LLorCell = <LL>, then display birthday selection method text]

In order to randomly select participants, I would like to speak with the adult, age 18 or older, who is home now and who had the most recent birthday. Would that be you or someone else?

>askname<

May I please have your first name -- just in case we get disconnected? Interviewer note: This isn't required.

>nysres<

You are currently living in New York State, correct?

```
<0> No (ineligible)
<1> Yes (proceed to interview) [go to confr]

Interviewer note: You must read this statement before proceeding.

Before we begin, there are a few points I need to cover:

I want to assure you that all the information you give will be kept completely confidential and that none of it will be released in any way that would permit your identification.

Your participation in this study is, of course, voluntary. If there is any question you would prefer not to answer, just tell me and we will go on to the next question.

Programming note: Only ask if income is under 50,000 based on estimated income response. [if hhinc50k = <1>, then go to hhincu]

Instead of a specific number, please tell me if your total household income In (Programming note: Display last year [fill lastyear]) was under or over \$50,000.

And was it:

<1> Less than \$10,000 [goto hhinc] <2> 10 to under \$20,000 [goto hhinc] <3> 20 to under \$30,000 [goto hhinc] <4> 30 to under \$40,000 [goto hhinc] <5> 40 to under \$50,000 [goto hhinc] <d> Do not know [goto hhinc] <r> Refused [goto hhinc]

>hhinco<

Programming note: Only ask if income is 50,000 or over based on estimated income response. [if hhinc50k = <2>, then go to hhinco]

Instead of a specific number, please tell me if your total household income in (Programming note: Display last year [fill lastyear]) was under or over \$50,000.

And was it:

<6> 50 to under \$75,000

<7> 75 to under \$100,000

<8> 100 to under \$150,000

<9> \$150,000 or more

<d> Do not know

<r> Refused

>hhinc<

Programming note: Calculate for all valid income responses. The coded value for household income is a single scale with the best response obtained from all of the household income items (hhince, hhinc50k, hhincu, hhinco). If the respondent did not give a valid response for any income questions, no value is recorded.

If available, the exact household income (from hhince) is coded according to the scale below.

Otherwise, if an income range is available (from hhincu or hhinco), it is copied to this variable.

Otherwise, if only a response to hhinc50k is available, incomes of "Under \$50,000" are coded as 5 (\$40,000 to under \$50,000) and incomes of "\$50,000 or over" are coded as 6 (\$50,000 to under \$75,000).

<1> Less than \$10,000

<2> 10,000 to under \$20,000

<3> 20,000 to under \$30,000

<4> 30,000 to under \$40,000

<5> 40,000 to under \$50,000

<6> 50,000 to under \$75,000

<7> 75,000 to under \$100,000

<8> 100,000 to under \$150,000

<9> More than \$150,000
