The meaning of community

I am going to start by asking you some questions about your community. First, people often refer to community as the place in which they live and work. However, the idea of community may mean different things to different people. When you refer to your community, what geographic area best describes what you mean?

Interviewer: We want to know the geographic area that best describes what they consider their community. If they will not define community in geographic terms, select "Do not know".

<1> Your local neighborhood
<2> Your village, town or city
<3> Your county or borough
<4> Your region of NYS (Adirondacks, Central NY, Western NY, etc.)
<5> Some other geographic region (describe ...) [specify]
