KHq1: Household income comparison

Thinking about your household's income from all sources, before taxes, how would you say your household income compares to that of all other households in the US?

<1> Only 10% of US households make more than my household does
(90% or most everyone else makes less)
<2> Only 25% of US households make more than my household does
(75% or three-quarters make less)
<3> Half of US households make more than my household does and half make less
<4> 75% or three out of four US households make more than my household does
(only 25% or one-quarter makes less)
<5> 90% or most everyone else makes more than my household does
(only 10% make less)
<d> Do not know
<r> Refused
